SUMMARY

Aspiring **Full-Stack Developer** passionate about building scalable applications with **React, Node.js, and MongoDB**. Strong background in **problem-solving** with experience across frontend and backend development. Eager to contribute to innovative engineering teams.

PROJECTS

CodeBase – Developer Communication Hub.

codeBase•June 2025 - August 2025

- Built a CodeBase using React.js, Node.js, Express, and MongoDB.
- Integrated Cloudinary Upload Widget for profile photo uploads; stored secure image URLs in MongoDB.
- Implemented user authentication, friend requests, and profile management with clean routing and validation.
- Designed a responsive frontend with Tailwind CSS and managed global state using Redux Toolkit.
- developing real-time chat with WebSockets .

IPO Application– Real Time IPOs

IPO Application•March 2025 - June 2025

- Built a IPO Application using React.js and Tailwind CSS to display real-time IPO listings and live prices.
- Integrated real-time IPO API for instant price updates, ensuring accurate market information.
- Implemented interactive UI components using Lucide-React icons for enhanced user experience.
- Designed a responsive frontend with clean routing and efficient state management.
- Developed dynamic dashboards to track, filter, and sort IPO data in real-time.

ChatBot - Interactive ChatBot

ChatBot•July 2024 - August 2024

- Built a ChatBot using HTML , CSS and JavaScript for an interactive ChatBot with live responses.
- Integrated real-time APIs to enable instant communication and dynamic data retrieval.
- Designed responsive frontend with CSS and intuitive UI components.
- Managed state to handle continuous data updates and ensure seamless user interaction.
- Optimized performance for real-time messaging with minimal latency.

EXPERIENCE

Intern, Tickyourlist
Remote |July 2025 - Current

- Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments.
- Gained hands-on experience in various software programs, increasing proficiency and expanding technical skill set.
- Provided exceptional customer service by promptly addressing inquiries, ensuring a high level of satisfaction among clientele.
- Worked on building web applications using React.js, Redux, and Redux-Saga for state management and handling side effects.
- Integrated RESTful APIs to fetch and display dynamic data in real-time.
- Implemented responsive UI components and managed global application state efficiently.

Intern, BlueStock Fintech
Remote| june 2025 - August 2025

- Contributed to a positive team environment by collaborating with fellow interns on group projects and presentations.
- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.
- Analyzed problems and worked with teams to develop solutions.
- Enabled more organized inventory system by cataloging company assets.

EDUCATION

Bachelor of Technology , (COMPUER SCIENCE & INFORMATION TECHNOLOGY)
Expected in 06/2026
Approved by - (Abdul Kalam Technical University)

SKILLS

Data Structures & Algorithms: Arrays, 2D Array, Sorting Algorithms, Recursion, Bit Manipulation

Frontend : React, Redux, HTML/CSS, Tailwind CSS

Backend: Node.js , Express.js, Restful API

Databases: MongoDB, MySQL

Programming Languages: JavaScript, Java, C, C++, Python
